

TOOWOOMBA TURF CLUB MASTER PLAN

MODE
DESIGN

MANNER. METHOD. FORM.

Toowoomba Turf Club

This master plan creates a cohesive framework for new development that thoroughly considers existing site uses, surrounding infrastructure, and future trends, along with social, economic, and environmental concerns.

The phased master plan aims to strengthen the thoroughbred horse racing industry for Toowoomba as well as South East Queensland by complimenting the existing site's uses through the creation of a thriving mixed-use precinct. The built form considers macro and micro levels to ensure it integrates and compliments its surrounds.
