DESIGN

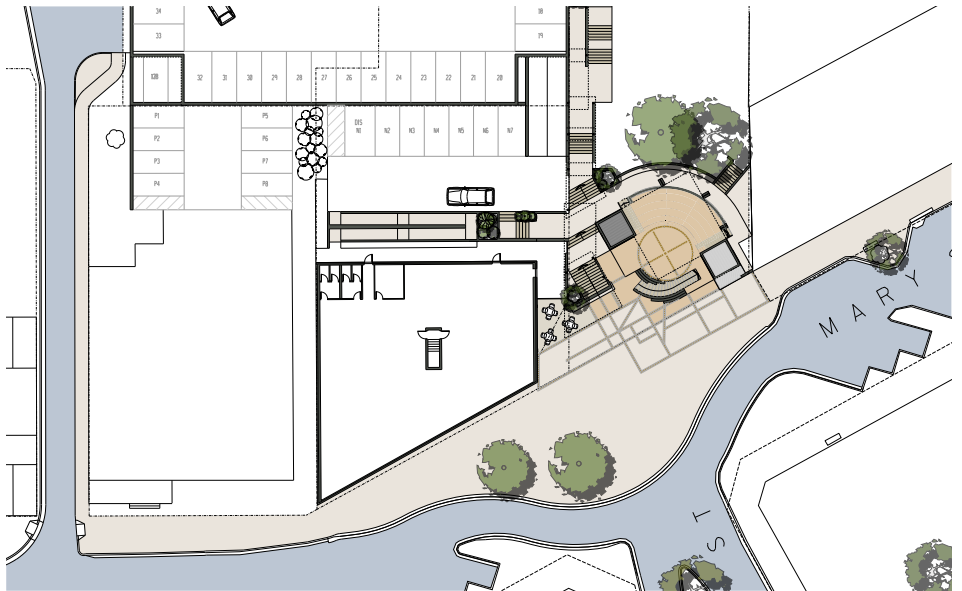

MANNER. METHOD. FORM.

Gympie City Centre

The kiosk is the focal point of the boardwalk precinct on the Burnett River's edge in the newly redeveloped Riverside Parklands. The design reflects a relaxed and informal style, with the lightweight, airy and translucent canopy enhancing the outdoor space, and the signage tower creating a strong visual identity.

Extensive use of steel framing combined with careful detailing achieves a low maintenance structure that will be used by visitors and residents for generations to come.

Project Details

Client: Gympie Council
Location: Gympie, Queensland
Type: Architecture/Urban/Tourism
Completion Date: 2004
