

# STRATHPINE URBAN RENEWAL

MODE  
DESIGN

MANNER. METHOD. FORM.

## Strathpine Urban Renewal

The Quality Centres Program sets a high standard for future development in the Strathpine Centre. These archetypal concepts were developed to guide future development and created a balance between functional utility, commercial viability, a high standard of urban design, and contemporary architecture. Stakeholders included Council, property owners, developers, investors, community, and design, development and construction consultants.
