

RAMSGATE RESIDENCES

KELVIN GROVE. BRISBANE. QLD

Apartment development

This is the first affordable housing component of the radical award-winning Kelvin Grove Urban Village and a significant step towards the Village's social sustainability goals.

A combination of 32 individual apartments of various sizes is located directly adjacent to private housing projects ranging through the market. The design demonstrates the pursuit of sustainability. The building responds environmentally through the fragmentation of the overall form, the selection of material, application of detailed elements and configuration of rooms to maximise prevailing breezes.

Client: Brisbane Housing Company LTD
 Location: Kelvin Grove, Brisbane, QLD
 Type: Residential
 Project no: 03154
